Measuring Facial Features

Objective: Measure the distances between key facial features and compare them.

Materials:

- Printed face grids
- Rulers
- Pencils

Instructions:

- Look at the face grid page.
- Measure the distance between the eyes, the width of the mouth, and the length of the nose.
- Record your measurements in the table provided.

Feature	Distance (cm)
Between Eyes	
Width of Mouth	
Length of Nose	

Questions:

Which feature is the widest??

Which feature is the longest?

How do these measurements change with different emotion?
