Snack Recommendation System

Rate the Snacks:

First, think about your favorite snacks. Give each snack a rating from 1 to 5 stars (★), where 1 star means you don't like it much and 5 stars means you love it!

Snack	Reason why you like it	Your rating (1-5 stars)	Friend's rating (1-5 stars)
Examples: Chocolate Chip Cookies Granola Bars Muffins	sweet crunchy, healthy crunchy, sweet sweet, healthy	4 5 3 5	5 3 5 4

Example:

Based on the ratings given in the table above, a neural network may recommend a sweet, crunchy and healthy snack like 'ants on a log'.

Snack: Ants on a log

Why I Recommend It: It's crunchy, healthy and sweet

Your turn!

Based on what you learned from your friend's ratings in relation to yours, recommend a different snack with features that your friend likes.

Snack: _____

Why I Recommend It: _____
